

HESSE

Stanzwerkzeuge

A revolution in the die cutting technology...

... a further step to an ideal die cutting system: H/PX

Advantages for you:

- extremely reduced patch-up time
- shortest set-up time
- steady machine runs
- higher machine efficiency

The ideal technology:

- the innovative die cutting line
- the fitted rubberisation
- pressure balance of the tool
- minimized tolerance in tool production

Our system offer for your step forward:

**Process analysis,
definition of tool standards,
setting of system requirements,
optimisation of your production.**
